

SolarSystem::Bodies
::BodyCollection::summary

SolarSystem::Bodies
::BodyCollection::to_json

SolarSystem::Bodies
::BodyCollection::total_mass

```
graph LR; A["SolarSystem::Bodies::BodyCollection::summary"] --> C["SolarSystem::Bodies::BodyCollection::total_mass"]; B["SolarSystem::Bodies::BodyCollection::to_json"] --> C;
```

The diagram illustrates a dependency or inheritance relationship. Two source methods, 'summary' and 'to_json', both point to the 'total_mass' method. The 'total_mass' method is highlighted in a gray box, indicating it is the target or a more fundamental component.
